

Rigging Guide

JC Strap V1

PLEASE FOLLOW ASSEMBLY GUIDE IN THE CORRECT ORDER

RS **aero** Adding the JC strap

Contents:

1 x string

1 x elastic

1 x 30mm block

2 x plastic clip

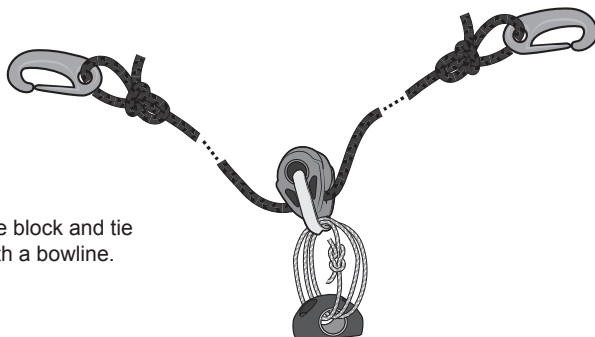

1.

- Attach 30mm block to bow eye with string.

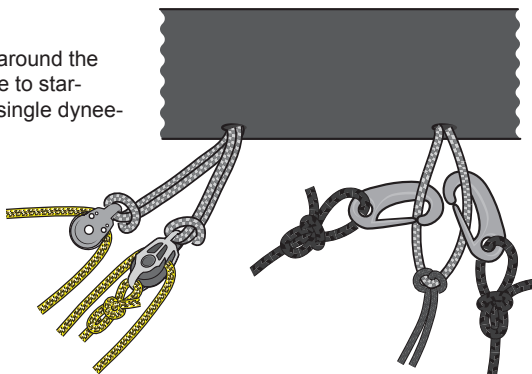

2.

- Feed the elastic through the block and tie a plastic clip on each end with a bowline.

3.

- Run the two ends of the JC strap around the outside of the mast (one to port, one to starboard) and clip both ends onto the single dyneema loop on the boom.

The JC strap must pass outside of all other rigging.
